The Following subchapter shall be added to Title 70; Chapter 70-40; Subchapter 70-40.8:

**CHAPTER 70-40.8
ELECTRONIC GAMING REGULATIONS**

Part 001 General Provision

Section 70-40.8-001- Authority

Authority for promulgation and issuance of this part is derived from the Commonwealth Code, including but not limited to, 1 CMC §§ 2553 (Department of Finance duties and responsibilities); 2557 (authority to adopt regulations regarding matters within the Department of Finance's jurisdiction and to provide both civil and criminal penalties for violations); 4 CMC § 1901 (authority to adopt regulations for tax administration); 9101-9115 (procedure for adoption of regulations under the Commonwealth Administrative Procedure Act); 4 CMC § 1503(h); and 4 CMC § 1503(a)(6) (regulatory authority for electronic gaming machines).

Section 70-40.8-005- Purpose and Scope

The purpose of these regulations is to provide structure for the implementation of Public Law 18-30, the "Tourism Entertainment and Destination Act of 2013" (TEDE Act). Public Law 18-30 exempts electronic games from the definition of "gambling device" if the electronic game is properly licensed. These regulations shall apply to use, purchase, supply or operation of any electronic games,

Section 70-40.8-010- Definitions

(a) "Electronic Game" means any electronic gaming machine or electronic table game device (including poker, roulette, baccarat, blackjack, craps, big wheel, slot machines, paigow, and sic bo; and any variations or composites of such) used for the purpose of playing a game traditionally played at tables, and includes any electronic device through which bets may be played on a game played at a table. Electronic Game includes a computer or server and any related hardware, software or other devices that are used to conduct gaming, either as a fully

automated version or as a semi-automated version where the collection of bets and payout of winnings are automated.

(b) **“Person”** means any natural person or business entity.

(c) **“Hotel”** means any resort-type establishment that may only be operated within the Third Senatorial District which is in an enclosed area or resort premises having: (i) 100 or more sleeping rooms or (ii) has fewer than 100 sleeping rooms but not less than 50 sleeping rooms so long as the hotel is attached to a golf course. This definition of "hotel" only applies to this Section 70-40.8 et seq.

Section 70-40.8-015- Criminal Penalties

Public Law 18-30 provides a limited exemption for Electronic Games from the prohibition of gambling in the Commonwealth. A person who uses, purchases, supplies, or operates electronic games in a manner that is not in compliance with these regulations does not fall under the limited exemption and will be subject to criminal penalties under 6 CMC §3159.

Section 70-40.8-020- Violation of Regulations as Grounds for Imposition of Civil Fines and Suspension of Licenses

Any person violating these regulations shall be subject to a fine of \$250.00 for a first violation, \$500.00 for a second violation, and \$1,000.00 for a third or subsequent violation. Each day the licensee is in violation of the regulations shall constitute a separate violation. Violations by a licensee of these regulations shall serve as the basis for immediate revocation of the associated license(s).

Section 70-40.8-025- Age Limit

No person under the age of 18 years of age may play an Electronic Game. It shall be the duty of an operator of Electronic Games to take steps necessary to enforce this prohibition. An operator's failure to enforce this age limitation shall constitute a violation of these regulations and shall be subject to the criminal and civil penalties provided under these regulations.

Part 100 Electronic Game Licensing

Section 70-40.8-101 Electronic Game License

To fall within the limited gambling exemption under Public law 18-30, an Electronic Game must be duly licensed as provided in these regulations. Applications for an Electronic Game License shall be in the manner and form required by the Secretary of Finance from time to time.

Section 70-40.8-105- Electronic Game Licensing Requirements

Section 70-40.8-110- Issuance of Electronic Game License Certification

Upon issuance of an Electronic Game License by the Commonwealth, a certificate of license shall be issued by the Commonwealth and placed on the front of the Electronic Game. The licensee is responsible for ensuring that the certificate remains on the Electronic Game throughout the term of the license. The license applies only to the specific Electronic Game tested and approved by the Commonwealth and is not transferable. The license certificate shall not be moved, covered, or altered. A fine up to \$5,000 shall be imposed on any party violating these requirements, and shall be basis for suspension and or revocation of any associated license(s).

("Electronic Game License Fee"). For purposes of calculation of net gaming proceeds, losses may only offset profits earned in the same calendar month from the same machine. In the event that a machine's net gaming proceeds exceed \$16,666.67 in any license year, the Licensee shall remit the Supplemental Fee on or before the fifteenth day of the subsequent month.
- (b) The "Net Gaming Proceeds" means the total amount of all credits or cash played in an individual electronic Game minus the credits paid out directly by the same Electronic Game.
- (c) An Electronic Game Operator must submit a written monthly report to the Department of Finance. The report shall provide details of the net gaming proceeds for each licensed Electronic Game and shall be submitted by the 5th day of the following month.

Section 70-40.8-125- Transfer of Electronic Gaming License Fees to Commonwealth

- (a) The fees owed to the Commonwealth for Electronic Gaming Licenses shall be electronically transferred to the Commonwealth no later than 9 a.m. of the fifteenth day of the month following when they are earned.

The term “manufacturing date” is defined as the date that the Electronic Game was initially assembled by the original manufacturer and must maintain all original manufacturing parts or parts approved by the original manufacturer.

Section 70-40.8-145- Testing of Electronic Games

All Electronic Games proposed for use, sale, licensing, or distribution in the Commonwealth shall be tested by the Secretary of Finance or designee to ensure compliance with all applicable standards (“Electronic Game Testing”). Section 70-40.8-150- Return on Wagers

All Electronic Games in the Commonwealth must provide a return on wagers of between eighty-eight percent (88%) to ninety-seven percent (97%) (“Return on Wager”) and be reflected as such in certification, verification, and testing of the Electronic Game by the Commonwealth at all times. Once the Return on Wagers is established for a specific Electronic Game and certified by the Commonwealth it must be maintained at all times until authorized in writing and subject to further certification to be changed. **Public Notice of Emergency and Proposed Health Insurance Regulations of
the Department of Finance**

Notice of Intended Action: The Department of Finance proposes the following regulations pursuant to the Administrative Procedure Act, 1 CMC § 9104(a). If adopted, these regulations will become effective ten days after publication of a Notice of Adoption in the Commonwealth Register. 1 CMC § 9105(b).

Emergency Adoption: The public interest in providing health insurance to the employees of the Commonwealth requires the Department of Finance to adopt emergency regulations for the purchase of election-related goods and services pursuant to 1 CMC § 9104(b). The following emergency regulations shall be effective for 120 days from the date of signature by the Governor. The Department of Finance proposed to adopt these emergency regulations immediately because the emergency regulations will delete portions of the regulations that appear to conflict with each other and would make insurance of government employees impossible.

Authority: These amendments are promulgated under the authority of 1 CMC § 8421, which authorizes the Department to administer the Government Life and Health Insurance Programs, and 1 CMC § 2557, which grants the Department the authority to adopt rules and regulations.

Terms and Substance: These emergency and proposed regulations specify that the government's share of employee health insurance premiums is not capped at fifty percent.

Directions for Filing and Publication: These proposed amendments shall be published in the Commonwealth Register in the section on proposed and newly adopted regulations (1 CMC § 9102(a)(1)) and posted in convenient places in the civic center and in local government offices in each senatorial district, both in English and in the principal vernacular (1 CMC § 9104(a)(1)).

Comments: Interested parties may submit written comments on the proposed regulations to Larissa Larson, Secretary of Finance, via U.S. mail to PO Box 5234, Saipan, MP 96950. Comments, data, views, or arguments are due within 30 days from the date of publication of this notice. 1 CMC § 9104(a)(2).

COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

Ralph DLG. Torres
Governor

Victor B. Hocog
Lieutenant Governor

EXECUTIVE ORDER NO. 2016-012

SUBJECT: DECLARATION OF A STATE OF SIGNIFICANT EMERGENCY

AUTHORITY: I, RALPH DLG. TORRES, pursuant to the authority vested in me as Governor of the Commonwealth of the Northern Mariana Islands by Article III, § 10 of the Commonwealth Constitution and P.L. 18-4, § 104 of the Homeland Security and Emergency Management Act of 2013, do hereby declare a State of Significant Emergency for the Commonwealth of the Northern Mariana Islands due to the imminent threat of the inability of the Commonwealth Utilities Corporation ("CUC") to provide critical power generation, water, and wastewater services to the CNMI and considering the harm such condition would pose to the community, environment, and critical infrastructure of the Commonwealth of the Northern Mariana Islands.

WHEREAS, CUC IS THE SOLE ELECTRICITY SUPPLIER to the Government of the CNMI, including all public safety activities, the schools, and the only hospital. CUC also supplies electricity to most of the CNMI's businesses and homes. While some businesses and agencies own backup generators, they are not generally organized to use the backups as permanent power sources and the diesel oil purchased to run these generators is substantially more expensive than that used for CUC power.

WHEREAS, WITHOUT CUC ELECTRICITY:

- (1) Most CNMI economic activity would come to a halt, much refrigeration and air conditioning would end, and the airports and ports would be forced to rely on emergency generation on the limited, expensive oil supply for it;
- (2) The CNMI's health and safety would immediately be at risk because traffic signals and street lighting would cease to function; emergency, fire, police facilities and their communications systems, and the hospital and island clinics would have to rely on limited fuel supplies for emergency generation and then cease functioning; and much refrigeration of food and medicines would end, as would air conditioning for the elderly and sick;

- (3) The public schools and the Northern Marianas College would close. Other educational institutions would close as their backup fuel supplies for emergency generators were exhausted; and
- (4) Water and sewage treatment would soon end. One of CUC's largest electric customers is the combined CUC Water and Wastewater Divisions. CUC is the sole supplier of electricity for these systems. CUC's water system relies on electricity to maintain the system pressure needed to prevent the backflow of pathogens, to chlorinate, and to pump, store, and distribute water supplies. CUC's wastewater system requires electricity to collect, pump, process, treat, and discharge sewage. The lack of electricity could result in sewage overflow, contaminating land and water.

WHEREAS, THERE EXISTS A FINANCIAL CRISIS:

- (1) CUC is owed over \$20 million by the public school system ("PSS") and the Commonwealth Healthcare Corporation ("CHC") and is owed over millions more by other users;
- (2) Although the commonwealth economy has recently improved, the improvement is only marginal and the economy and the government's finances are still fragile. This government strains to meet its obligations.
- (3) CUC often only has days' worth of purchased diesel fuel to power its system because it lacks the funds to buy oil from its sole, cash-only supplier. CUC has no credit or other means to buy fuel than the revenue it collects from its customers;

WHEREAS, THERE EXISTS A TECHNICAL WORKER CRISIS:

- (1) CUC faces a manpower crisis. Skilled worker and a responsive support system are key to the success of the operation, particularly for preventative maintenance. At present, CNMI law at 3 CMC §§ 4531 and 4532 prohibits CUC from hiring any more non-U.S. technical workers;
- (2) CUC bears a substantial obligation to deliver highly technical work on time to the satisfaction of the U.S. District Court and the U.S. Environmental Protection Agency ("EPA"), pursuant to two sets of consent, or "Stipulated Orders." Failure to meet the requirements of the federal court orders could subject CUC and the CNMI to substantial fines and charges and, in the extreme, to a federal takeover of their finances;
- (3) CUC requires employees with specialized training. There are many non-U.S. citizens whom CUC needs to retain on technical and professional contracts. Without these positions filled, CUC operations would be severely compromised;

- (4) The legislature, through P.L. 17-1 (Mar. 22, 2010), has limited CUC's ability to hire technical staff, eliminating prior statutory permission to hire up to nineteen foreign workers and reinstating a moratorium on the government's hiring of foreign nationals, even if needed for highly technical positions for which no local or mainland citizens are available. The CUC Act, as subsequently reenacted by P.L. 16-17 (Oct. 1, 2008), provides that CUC shall hire such persons as are necessary for operations, *except as otherwise limited by other law.* 4 CMC § 8123(h);
- (5) There are not enough U.S. citizen or U.S. resident technical specialists at CUC to perform the power generation work, particularly specialists with experience in the type of engines that CUC uses. U.S. citizens with the necessary skills are not readily available in the CNMI and it is costly to recruit from the United States. CUC believes that the vast majority of skill sets, considering its cash restrictions, must come from non-U.S. personnel. CUC has tried to hire diesel mechanics in the CNMI, but has been unsuccessful in finding enough qualified candidate;
- (6) The impact of an inadequate workforce is substantial. First, there would be a direct deterioration of service to existing customers. There would be brownouts or area blackouts with the above-mentioned loss of service. Second, the power plants would again degrade, producing more of these outages. Third, if CUC fails to meet federal court deadlines for the Stipulated Orders, the Court could appoint a federal receiver and its consulting team with all expenses charged to CUC customers.
- (7) CUC's renewal of contracts and hiring of foreign expert workers is necessary to sustain the integrity of CUC's systems. Thus, continued relief from the legislative prohibition on hiring foreign national workers is necessary to ensure the delivery of uninterrupted power services to the people of the Commonwealth. The legislature is urged to address this matter by way of amending local law to allow CUC to continue employing the services of foreign workers for such technical positions difficult to fill and to provide for a reasonable transition period.

WHEREAS, BY THIS DECLARATION OF A STATE OF SIGNIFICANT EMERGENCY, I intend to enable CUC to continue to provide necessary services to the people of the Commonwealth. This Declaration is necessary to protect the health and safety of our children, our senior citizens, businesses, and all other CNMI residents and visitors.

NOW, THEREFORE, I hereby invoke my authority under Article III, § 10 of the Commonwealth Constitution and P.L. 18-4 § 104(c), to take all necessary measures to address the threats facing the Commonwealth of the Northern Mariana Islands.

It is hereby **ORDERED** that:

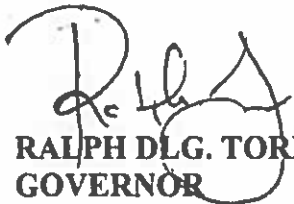

This Declaration of a State of Significant Emergency shall take effect immediately and all memoranda, directives, and other measures taken in accordance with this Declaration shall remain in effect for thirty (30) days from the date of the Executive Order unless I, prior to the end of the thirty (30)-day period, terminate the declaration of a state of significant emergency. P.L. 18-4, § 104(g)

Under authority of this Declaration and the goal of mitigating or ameliorating the above described crises, I immediately direct the following:

DIRECTIVE: Insofar as it applies to CUC, 3 CMC § 4531 is hereby suspended. As a result of the suspension of 3 CMC § 4531, CUC shall have the full power and authority to retain staff which may include employees other than citizens and permanent residents of the United States.

The above described Directive is in no way meant as the limits of my actions or authority under this Declaration. Accordingly, I reserve the right under this Declaration to issue any and all directives necessary to prevent, mitigate or ameliorate the adverse effects of the emergency.

GOVERNOR

COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

Ralph DLG. Torres
Governor

Victor B. Hocog
Lieutenant Governor

EXECUTIVE ORDER NO. 2016-013

SUBJECT: DECLARATION OF A STATE OF SIGNIFICANT EMERGENCY

AUTHORITY: I, RALPH DLG. TORRES, pursuant to the authority vested in me as Governor of the Commonwealth of the Northern Mariana Islands by Article III, § 10 of the Commonwealth Constitution and P.L. 18-4, § 104 of the Homeland Security and Emergency Management Act of 2013, do hereby declare a State of Significant Emergency for the Commonwealth of the Northern Mariana Islands due to the imminent threat of the inability of the Commonwealth Utilities Corporation (“CUC”) to provide critical power generation, water, and wastewater services to the CNMI and considering the harm such condition would pose to the community, environment, and critical infrastructure of the Commonwealth of the Northern Mariana Islands.

WHEREAS, CUC IS THE SOLE ELECTRICITY SUPPLIER to the Government of the CNMI, including all public safety activities, the schools, and the only hospital. CUC also supplies electricity to most of the CNMI’s businesses and homes. While some businesses and agencies own backup generators, they are not generally organized to use the backups as permanent power sources and the diesel oil purchased to run these generators is substantially more expensive than that used for CUC power.

WHEREAS, WITHOUT CUC ELECTRICITY:

- (1) Most CNMI economic activity would come to a halt, much refrigeration and air conditioning would end, and the airports and ports would be forced to rely on emergency generation on the limited, expensive oil supply for it;
- (2) The CNMI’s health and safety would immediately be at risk because traffic signals and street lighting would cease to function; emergency, fire, police facilities and their communications systems, and the hospital and island clinics would have to rely on limited fuel supplies for emergency generation and then cease functioning; and much refrigeration of food and medicines would end, as would air conditioning for the elderly and sick;

- (3) The public schools and the Northern Marianas College would close. Other educational institutions would close as their backup fuel supplies for emergency generators were exhausted; and
- (4) Water and sewage treatment would soon end. One of CUC's largest electric customers is the combined CUC Water and Wastewater Divisions. CUC is the sole supplier of electricity for these systems. CUC's water system relies on electricity to maintain the system pressure needed to prevent the backflow of pathogens, to chlorinate, and to pump, store, and distribute water supplies. CUC's wastewater system requires electricity to collect, pump, process, treat, and discharge sewage. The lack of electricity could result in sewage overflow, contaminating land and water.

WHEREAS, THERE EXISTS A FINANCIAL CRISIS:

- (1) CUC is owed over \$20 million by the public school system ("PSS") and the Commonwealth Healthcare Corporation ("CHC") and is owed over millions more by other users;
- (2) Although the commonwealth economy has recently improved, the improvement is only marginal and the economy and the government's finances are still fragile. This government strains to meet its obligations.
- (3) CUC often only has days' worth of purchased diesel fuel to power its system because it lacks the funds to buy oil from its sole, cash-only supplier. CUC has no credit or other means to buy fuel than the revenue it collects from its customers;

WHEREAS, THERE EXISTS A TECHNICAL WORKER CRISIS:

- (1) CUC faces a manpower crisis. Skilled worker and a responsive support system are key to the success of the operation, particularly for preventative maintenance. At present, CNMI law at 3 CMC §§ 4531 and 4532 prohibits CUC from hiring any more non-U.S. technical workers;
- (2) CUC bears a substantial obligation to deliver highly technical work on time to the satisfaction of the U.S. District Court and the U.S. Environmental Protection Agency ("EPA"), pursuant to two sets of consent, or "Stipulated Orders." Failure to meet the requirements of the federal court orders could subject CUC and the CNMI to substantial fines and charges and, in the extreme, to a federal takeover of their finances;
- (3) CUC requires employees with specialized training. There are many non-U.S. citizens whom CUC needs to retain on technical and professional contracts. Without these positions filled, CUC operations would be severely compromised;

- (4) The legislature, through P.L. 17-1 (Mar. 22, 2010), has limited CUC's ability to hire technical staff, eliminating prior statutory permission to hire up to nineteen foreign workers and reinstating a moratorium on the government's hiring of foreign nationals, even if needed for highly technical positions for which no local or mainland citizens are available. The CUC Act, as subsequently reenacted by P.L. 16-17 (Oct. 1, 2008), provides that CUC shall hire such persons as are necessary for operations, *except as otherwise limited by other law.* 4 CMC § 8123(h);
- (5) There are not enough U.S. citizen or U.S. resident technical specialists at CUC to perform the power generation work, particularly specialists with experience in the type of engines that CUC uses. U.S. citizens with the necessary skills are not readily available in the CNMI and it is costly to recruit from the United States. CUC believes that the vast majority of skill sets, considering its cash restrictions, must come from non-U.S. personnel. CUC has tried to hire diesel mechanics in the CNMI, but has been unsuccessful in finding enough qualified candidate;
- (6) The impact of an inadequate workforce is substantial. First, there would be a direct deterioration of service to existing customers. There would be brownouts or area blackouts with the above-mentioned loss of service. Second, the power plants would again degrade, producing more of these outages. Third, if CUC fails to meet federal court deadlines for the Stipulated Orders, the Court could appoint a federal receiver and its consulting team with all expenses charged to CUC customers.

Under authority of this Declaration and the goal of mitigating or ameliorating the above described crises, I immediately direct the following:
